2021	1 1	0 0%							

Retention Rate: The number and percentage of students from a specific cohort who stayed in the program at the end of an academic year (fall, spring and summer).

Attrition Rate: The number and percentage of students from a specific cohort who left the program at the end of an academic year (fall, spring and summer).

Graduation Rate: The number and percentage of students from a specific cohort who has graduated from the program.

On time Graduation:

- Full Time Students: The number of students from a specific cohort who have graduated by the end of the study period of the program as set by the university + 1 year.
- Part Time Students: The number of students from a specific cohort who have graduated by the end of the study period of the program as set by the university + 2 years.
- For both B.Sc of Medicine and Bachelor of Surgery (MBBS) and B.Sc. of Dental Surgery (BDS) the period is considered as 5 years without any addition.

Study Period of the program: It is determined based on the total number of credit hours of the program, considering that the average undergraduate students register 15 credit hours per semester.

Retention and Graduation Rates

Retention Rate: The number and percentage of students from a specific cohort who stayed in the program at the end of an academic year (fall, spring and summer).

Attrition Rate: The number and percentage of students from a specific cohort who left the program at the end of an academic year (fall, spring and summer).

Graduation Rate: The number and percentage of students from a specific cohort who has graduated from the program.

On time Graduation:

- Full Time Students: The number of students from a specific cohort who have graduated by the end of the study period of the program as set by the university + 1 year.
- Part Time Students: The number of students from a specific cohort who have graduated by the end of the study period of the program as set by the university + 2 years.
- For both B.Sc of Medicine and Bachelor of Surgery (MBBS) and B.Sc. of Dental Surgery (BDS) the period is considered as 5 years without any addition.

Study Period of the program: It is determined based on the total number of credit hours of the program, considering that the average undergraduate students register 15 credit hours per semester.
